INTRODUCTION

The Primary aim of this bibliography is to produce a systematic guide to the most important works in the European Languages, mostly in English, on Iraq, its history, its people, its cultural background, and its various phases of development. The Bibliography is intended for the use of research workers, students, government officials, and anyone who has a research interest in the Country.

The Compiler, as a University Librarian, has always felt the need for a comprehensive bibliography on Iraq which would facilitate study and research in this area.

To my knowledge no attempt has been made, until date, to fill the gap. There are a number of general bibliographies which tried to treat the subject as a part of Middle Eastern studies, but they all lack comprehensiveness.

The Work began by searching through the Card Catalog of the University of Basrah Library, then proceeded to checking bibliographies, catalogs of Iraqi and foreign libraries, publishers catalogs. General indexes to periodicals were also consulted. The Compiler has tried very hard to verify the information he finds in more than one source. Actually the list of sources consulted is the body of the work.

The Bibliography covers books, pamphlets, official publications, Master theses and Ph.D. Dissertations in the European languages, the majority being in English. All works selected are printed between 1900 and 1975, except in few cases such as classic

works and travels, which are considered essential background sources for the researcher, therefore, they should not be neglected.

Arabic publications are not included here. These form another comprehensive bibliography which is prepared by the same compiler, and it is ready for printing separately.

The Bibliography has been arranged by the main classes of the Dewey Decimal Classification with slight modifications. Each book is listed under one main entry, usually this is the author, although it may occasionally be the editor, or even a title only. Each book was placed where it was felt the book as a whole fitted best.

Each entry cites name of author or editor, title, edition (if other than the first) place of publication, publisher, date of publication, page numbers or volumes when relevant, and illustration.

It was not intended to include annotations, but some of the items have been annotated when it was found necessary to explain their contents.

It is well-known that no bibliography claims to be comprehensive and completely correct. This bibliography is not an exception, especially because it is one man's work. The compiler welcomes any suggestions, corrections, or addition making it possible to improve a new edition of this work.

As always I am indebted to my wife for her continuous encouragement and support.

مقدمة

الهدف الرئيسي من هذه الببليوغرافية هو وضع قائمة علمية شاملة للمصادر والمراجع الاجنبية في أيدي الباحثين والدارسين لتاريخ العراق وأحواله الطبيعية والاقتصادية والاجتماعية والسياسية .

تضم هذه القائمة نحو من ألفي مصدر ومرجع وتشتمل على كتب ونشرات ومطبوعات رسمية ورسائل علمية للماجستير والدكتوراه نشرت في الفترة ما بين ١٩٠٠-١٩٧٥ م .

وتسهيلا للمراجعة فقد وزعت المصادر والمراجع في القائمة بحسب اصول التصنيف العشري للمعرفة البشرية دون التفريعات مع بعض الحويزات البسيطة . لذا فقد ابتدأنا بسرد كتب الفهارس والببليوغرافيات والكشافات ثم الكتب الباحثة في العلوم الاجتماعية مثل الاحصاء والسياسة والاقتصاد والتربية والقانون . وبعد ذلك ذكرنا كتب اللغة والادب ، وبعدها كتب العلوم الصرفة والتطبيقية ، وتتبعها كتب الجغرافية والرحلات ، واخيرا كتب التاريخ والاثار والتراجم .

وقد اثبتنا الكتب وفقا للترتيب الهجائي لاسماء مؤلفيها ، اما المطبوعات التي اصدرتها جهات رسمية فندخلها تحت اسم الدولة ثم الوزارة او الدائرة المختصة .

وتسهيلا للبحث فقد اثبتنا في نهاية الكتاب كشافا هجائيا بأسماء المؤلفين وآخر بعنوانين الكتب .

وأخيرا نرجو من رجال الاختصاص التكرم علينا بملاحظاتهم وتصويباتهم عما بدر منا من اخطاء او فاتنا من معلومات لعل في الامكان تدارك ذلك في طبعة اخرى للكتاب .

والله نسأل ان يهدينا الى الصواب
