Appreciation

The Kurdistan Region Statistical office would like to express its gratitude to the directors and employees of the govrenarate statistics offices who participated in this survey. And would also like to thank the General Board of Tourism of the Kurdistan Region and the govrenarate boards for their assistance in conducting this survey. Many thanks to all the tourism unit owners who cooperated with teams in filling out the questionnaires.

We hope that this report will be useful for everyone to promote and develop this sector in particular and the economy of the Kurdistan region in general.

The committees and teams of tourism Establishments Survey

High committee

1. Serwan Mohamed Muhialdeen	President of KRSO
2. Amal Jalal Mohammad	Member/ the head of the tourist board
3. Mahmud Othman Maruf	Member/ the general supervisor of surveys in Sulaymaniyah governorate
4. Shwan Jabar Fatah	Member/ the head of Sulaymaniyah governorate statistics directorate
5. Saman Izaddin Rashid	Member/ the head of Erbil governorate statistics directorate
6. Chyavan Abdulrazaq Sleman	Member/ the head of Duhok governorate statistics directorate
7. Shaima Mohammad Shaker	Member/ Survey coordinator/ the director of trade statistics

Analysis and report preparation team

1. Shaima Mohammad Shaker	Director
2. Viyan Mustafa Qader	Member
3. Begard Sabir Aziz	Member

Report Translation team

1. Hadar Heso Mirkhan
2. Jeger Jabali Faqyazddin

Publishing Design

1. Chimam Borhan

Field Team

Erbil Governorate

1. Sami Abdullah Naqib	Local Supervisor
2. Mariwan Hasan Abdullah	Enumerator
3. Mojda Fakhraddin Rasul	Enumerator
4. Bashdar Ahmad Kheder	Enumerator
5. Rebin Qarin Taha	Enumerator
6. Nask Salam Saleh	Data Recorder

Sulaymaniyah Governorate

1. rebar Bakhtyar Abdullah	Local Supervisor
2. Guna Nori Ali	Enumerator
3. Shiraz Najib Karim	Enumerator
4. Suma Sabah Ali	Enumerator
5. Zuzk Kamal Mohammad	Enumerator
6. Nyaz Kamal Aboubaker	Data Recorder

Duhok Governorate

1. Abdulsetar Mohammad Abdullah	Local Supervisor
2. Darav Abdullah Naser	Enumerator
3. Mohammad Tayeb Qasem	Enumerator
4. Saliwa Sada Mikhail	Enumerator
5. Hakar Haji Naser	Enumerator
6. Hakar Jalal Qasm	Enumerator
7. Azad Hasan Jasm	Data Recorder

Preface

Kurdistan Region attracts many tourists by its beautiful nature and historical places. The tourism sector is a vital part of the development of the economic sector in the Kurdistan Region, as well as many other countries, through creating job opportunities, bringing hard currency, and contributing to GDP. Kurdistan Region government is making efforts to invest in this sector toward development of tourism projects, by establishing the “General Board of Tourism” in order to attract foreign and local tourism companies and investors.

Tourists and tourism projects create job opportunities and become a source of livelihoods for many people who work in tourism establishments, restaurants, markets, and alike and therefore, providing an accurate and reliable data that plays a significant role in the success of projects. For this purpose, KRSO is working to provide various information and data to planners and decision-makers and empowering them to strengthen the economy of the region.

To meet the needs for accommodation of tourists, tourism establishments were created and their numbers increased, so it was necessary to have reliable data on the number of such places, their types, and number of tourists and the capacity of these places, in order to organize these locations in terms of quantity and quality. For this purpose and through this report, we present the data of tourism establishments in the Kurdistan Region and hope it helps the improvement of the tourism sector and economic development of the Kurdistan Region.

Here, we would like to thank staff of KRSO and the Tourism Board for conducting this survey. We also express our gratitude to the governorate’s statistical directorates and the region’s administrations for their participation in the survey and making efforts to successfully finish it. Furthermore, we are grateful to all the owners of hotels, motels, and tourist complexes who sincerely cooperated and answered the questions of the survey.

We hope that this report will be useful for all users to promote and develop this sector and the economy of the region.

Serwan Mohamed Muhialdeen
President of Kurdistan Region Statistics Office

Introduction

Kurdistan Region is one of the regions that many tourists visit because of its beautiful nature, historical sites, stability and security, especially after 2009, when the number of tourists increased year by year and the tourism sector started a new phase as an important source of economy growth.

Since then, Kurdistan Region Statistical Office (KRSO) works annually to collect detailed statistical data on tourism establishments and the situation of tourism sector in Kurdistan Region. For this purpose and subject to availability of budget, it conducted the tourism establishment surveys for the years 2009, 2012, 2013, and 2015. Following 2016, the survey wasn't conducted due to the war against ISIS, poor security situation in Iraq, the budget cuts by the Iraqi federal government, the spread of the coronavirus and travel ban between governorates and countries. In 2021, KRSO, in cooperation with CSO and in coordination with the General Board of tourism, conducted the survey for 2019 in Iraq and Kurdistan Region. The survey provided number of important data such as the number of tourism establishments, the number of domestic and foreign tourists, the number of nights stay, the number of workers, expenditure and income of the tourism establishments, etc.

This survey includes tourism establishments that are in operation and excludes those that are closed or under renovation.

Objectives

The purpose of this report is to provide statistical data on the tourism sector in the Kurdistan Region, as a reliable source for all those involved in the tourism sector, in order to plan and make proper decisions for the development and improvement of the tourism sector and economy in the Kurdistan Region.

The most important indicators resulted in this survey are:

- The number of operating tourism establishments by category and governorate
- Services provided in tourism establishments
- The number of workers in tourism establishments by gender, type of work, and governorate
- The number of guests and nights spent by governorate and nationality
- Income and expenses of tourism establishments

Definitions

Tourism establishments: Tourism establishments refer to places where tourists live and use during their trips instead of their place of residence that includes hotels, motels, apartments, and tourism complexes, where all facilities and services are provided and managed under a special administrative unit. In the Kurdistan Region, tourism establishments are classified according to the type of service provided, from high class, which has five stars, to local, without any star.

Hotel: Hotel is a tourism establishment that provides accommodation for people instead of their place of residence to temporarily live or stay in, where all necessities such as beds, bathrooms, and toilets (WC) are available. A hotel is a large place where an increased number of people (more than houses) stay and is run by people who have skills in the hotel field.

Motel: Motel refers to a place provides travelers with a place to stay and having parking area. The services which are offered by motels are less than what offered by hotel. Motels are categorized by the size of services they provide.

Tourism apartment: It refers to a place provides travelers with more space than a normal room with a place for cooking and other basic services. It is categorized by the size of services it provides.

Tourism complex: It refers to a group of tourism buildings where different services are provided and categorized by the size of services it provides and managed under a specific administrative unit.

Number of guests: It is the number of guests who are local or from other countries that stay in tourism establishments for a specific time (according to check in and check out time).

Number of nights stayed (beds reserved): The total number of nights the guests stay in tourism establishments on bed or room basis for a specific time period.

Total revenue of tourism establishments: Includes the income from tourism establishments for the services provided to guests such as accommodation, the rent of shops, markets, restaurants, parking and other services such as swimming pools, massage and laundry, the rent of cars belonged to the tourism establishments, rent of ceremony halls, opening of exhibitions and conferences, as well as the value of food and drinks sold in restaurants and cafeterias.

Occupied Rooms: They are rooms that guests have already booked and paid for them.

Value of sales: It is the value of goods and services, which is directly or indirectly provided to guests in tourism establishments.

Other incomes: It refers to income earned from other services provided to guests which have not been mentioned with other items such as swimming pools, washing and laundry, Internet service,

renting private cars belonged to tourism establishments, holding parties and renting of ceremony halls, opening Exhibitions and similar.

Tourism Establishments classification

Tourism establishments are classified by the level of services they provide and broken down into categories: Five –star, Four-stars, Three-star, Two- star, One- star, and national establishments that have no stars.

Ownership of the building

There are three types of building ownership as follows.

Public: It is a government building and owned by government.

Private: It is a private building owned by one or more persons.

Mixed: It is jointly owned by government and private sector.

Administrative Ownership: in terms of management of tourism establishment, just like building ownership, there are three types of administrative ownership, which are public, private, and mixed.

Legal status: It legally determines the type of ownership of tourism establishments which are public, private and mixed. Private and mixed ownerships consist of the following four types:

Sole company: the owner of this type of company is an ordinary person who is responsible for the business of the company and is not limited to all affiliates of the company.

1. **Partnership or Joint venture company:** this type of company comprises of several persons – not less than 5 and have their own share out of the total share and have the responsibility for the debts by the value of their share.
2. **Limited liability Company:** This type of company comprises of several persons- not more than 25 and have their own share and have the responsibility of all related to company each by the value of their share.
3. **Cooperative (Joint stock) Company:** Is a company that comprises of several common persons (2-10) who have their own share and have jointly unlimited responsibility of all related to the company.

Data quality

In this survey, all measures have been taken to obtain reliable data and reduce the statistical and non-statistical errors. All these procedures have been explained in the methodology of the survey as follows:

Survey methodology

To achieve accurate results in any survey, there is need for preparation and planning in advance. Therefore, like any other survey, the preparations were made and methods were determined to carry out the tourism establishment survey. Below are all the methods and preparations stages made to conduct the survey.

1. Survey form

The questionnaire of the survey was developed by the Central Statistical Agency of Iraq (CSO) and approved after taking into consideration the observations of Kurdistan Region Statistics Office (KRSO) and international standards. The form is available in both Arabic and Kurdish languages, in which the information of every year is collected in the following year, for example, data of 2020 will be collected in 2021.

The survey form includes the following sections:

- **Preliminary information:** Referring to the name of the tourism establishment, the name of the owner, address and location.
- **General information:** Referring to the ownership, classification, legal status, license and year of establishment.
- **Capacity:** Referring to the number of rooms, beds and services.
- **Employees:** Referring to the number of workers or employees according to their citizenship, gender, type of work, wage and in-kind donations.
- **Visitors and night stays:** Referring to the number of visitors and their night stays according to their citizenship and governorates.
- **Income and expenditure:** referring to the types of income and expenditure according to the needs of the tourism establishment.

2. Survey framework

The survey framework was obtained from Kurdistan Region Tourism Board and the General Directorate of Tourism (Erbil, Sulaymaniyah and Duhok). The information on national hotels was obtained from the list of national hotels and restaurant community. The list includes all the tourist establishments registered in the Kurdistan region until 31/12/2019 establishments that were regularly in operation and numbered 867 establishments, but those that were closed or haven't license were not included in this survey.

2.1. Sample size and sample selection method

To select the sample, in the tourism survey, it was relied on the random sample method based on the frame of the tourism establishments for 2020. According to the frame, for the tourism establishment numbering 45 and above, sampling method has been used based on the classification they are placed (number of stars) and governorates. The following formula has been used for calculating sample size:

$$\frac{Nh}{N} * n = nh$$

In which,

nh = The sample size of Tourism establishments for Each classification or category (only in operation ones)

Nh = The total sample size of Tourism establishments for Each classification or category (in operation and not in operation ones).

n = The sample size of Tourism complexes (only in operation ones)

N = The total sample size of Tourism complexes (in operation and not in operation ones)

The sample form was used for tourism establishment survey in both Erbil and Sulaymaniyah governorates based on the classification of the Establishments, but in Duhok governorate it was comprehensive.

3. Field work

3.1. Training course

In order to conduct field work, only those employees were selected from Kurdistan Region Statistics Office (KRSO) and statistics directorates in the governorates who had full ability and experiences in the field work. After the assignment, in coordination with the Iraqi Central Statistics Organization (CSO), KRSO held two 3-day courses in Sulaymaniyah governorate / Sulaymaniyah Statistics Directorate between 14-16/6/2021. The first course was held to train enumerators on how to fill out forms for the years 2019 and 2020, as well as how to practically deal with the owners of the tourism establishments and understanding them, identifying obstacles and solving them. At the same time, the second course was held for training data recorders on how to record data according to the Access Program which is used for this survey. On the last day of the course, a test was conducted on the survey questionnaire. It is worth mentioning that the data for the year 2020 and the year 2019 was collected simultaneously due to the spread of the coronavirus and the lockdown in 2020, when most of the tourist establishments were closed for much of the year.

3.2. Organizing and managing the field work

Following the end of the courses, the teams were divided over governorates according to the sample size of tourism establishments for each governorate. The fieldwork lasted two months from 20/6 to 20/8/2021. There were three teams with three local supervisors, each supervising the field work in their own governorate. The central supervisor from KRSO and CSO supervised the teams in the governorates to follow up the field work process and data collection.

3.3. Data collection and field audit

In this survey, data were received directly from the owners of the tourism establishments and recorded in a standard form. The field work of this survey was completed on 20/8/2021. To monitor the fieldwork, local supervisors visited the field team and checked the forms to correct any errors through the researcher or returned to the field to verify the records. Forms to download on computer.

4. Data entry

4.1. Training of the data entry staff

Following the field work and verification of the questionnaires, the process of data entry was done using Access program in the statistical directorate of each governorate. Then, under the supervision of the head of the trade statistics department, the forms along with CD of data were sent to CSO for data cleaning, analyzing and tabling after transferring data from Access to Excel program to finalize data and making available in a statistical report.

Results

In 2020, in Kurdistan region, the number of tourism establishments that were in operation was 867, where it shows an decrease of 0.6% compared to 873 tourism establishments in 2019 (Figure 1). At the level of governorates (Figure 2), Erbil governorate has the highest percentage rate of tourism establishment with 55%, followed by Sulaymaniyah governorate with 31.7% and Duhok governorate with 13.3%.

Figure 1: Comparison between the number of tourism establishments in Kurdistan Region in 2020, 2019, 2016 & 2013

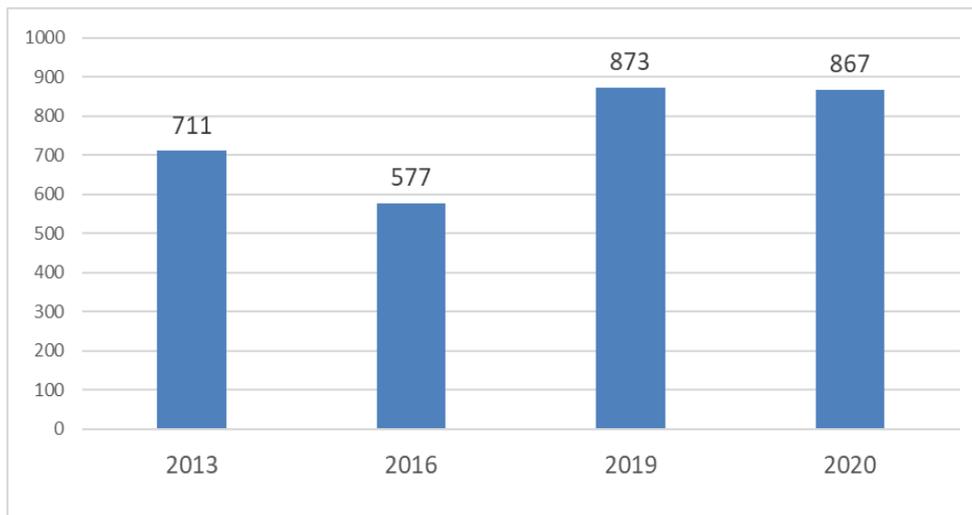

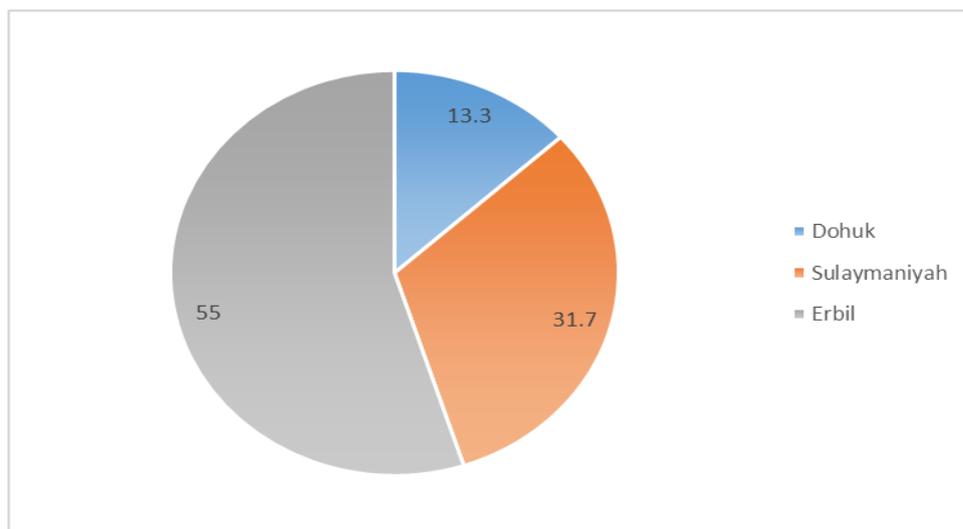

Figure 2 : Percentage distribution of tourism establishments at the level of governorates in Kurdistan Region in 2020

Regarding the ranking of tourism establishments in Kurdistan Region, there is not a significant change in the number of establishments in 2020 compared to 2019 (Figure 3). In 2020, at the level of Kurdistan Region, the tourism establishments of 5-star numbered 24 accounting for 2.7%; 4-stars was 88 accounting for 10%; 3-stars was 129 accounting for 14.8%; 2-stars was 181 accounting for 20.8%; 1-star that recorded the highest number of 233 accounting to 26.8%; and nationals has a record of 212 comprises 24.4% of the total tourism establishments in Kurdistan Region. At the level of governorates, Erbil governorate has the highest number of tourism establishments followed by Sulaymaniyah and Duhok governorates.

Figure 3: Comparison between tourism establishments in Kurdistan Region in 2020 & 2019 by classification

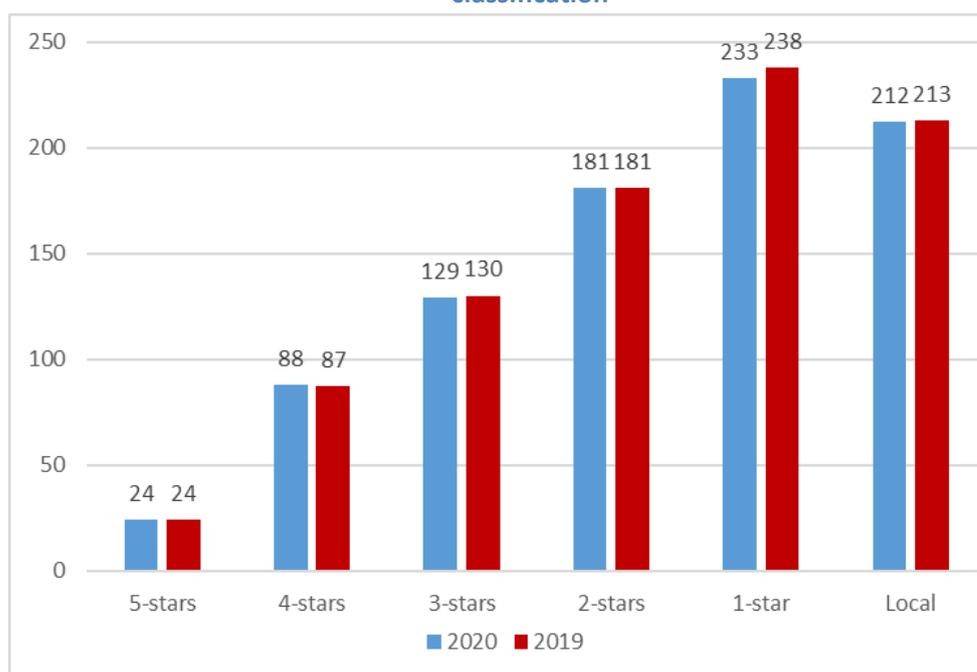

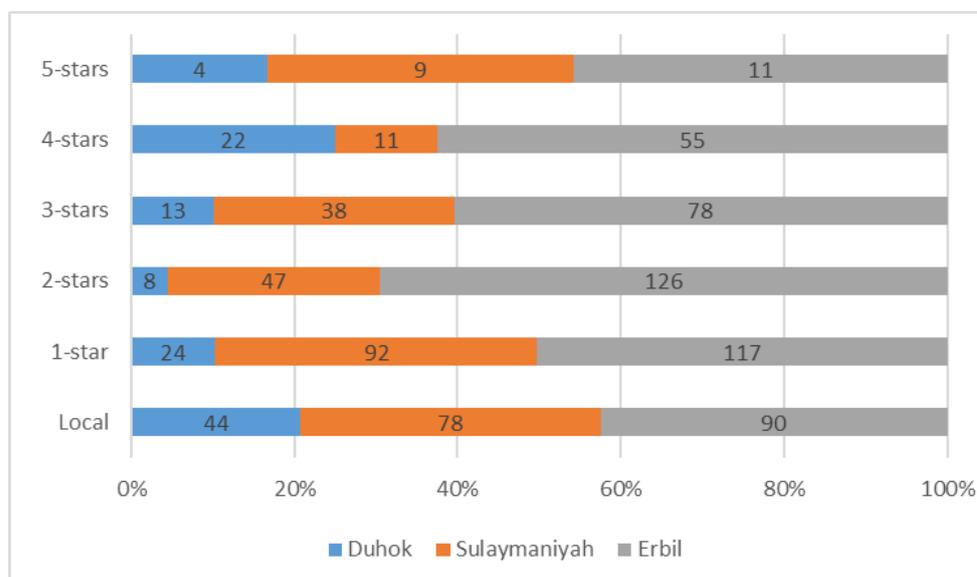

Figure 4: Distribution of tourism establishments at the level of governorates in Kurdistan Region in 2020 by classification

According to the results, at the level of Kurdistan Region, the number of visitors in 2020 was 2,027,119, where it shows a decrease of 44.5% compared to 2019 (3,652,652 visitors). Also, the number of stayed nights in 2020 (3,141,562) show a decrease of 43.8% compared to 2019 (5,598,422). Regarding the number of visitors and stayed nights at the level of governorates. The reason for this decrease is generally due to the weakening of the economic and financial state, the spread of the coronavirus and the curfew that prevented the arrival of domestic and foreign tourists and foreign visitors to Kurdistan region, figure 5 and 6 show more details.

Figure 5 : Number of visitors in tourism establishments at the level of governorates and Kurdistan Region in 2020 & 2019

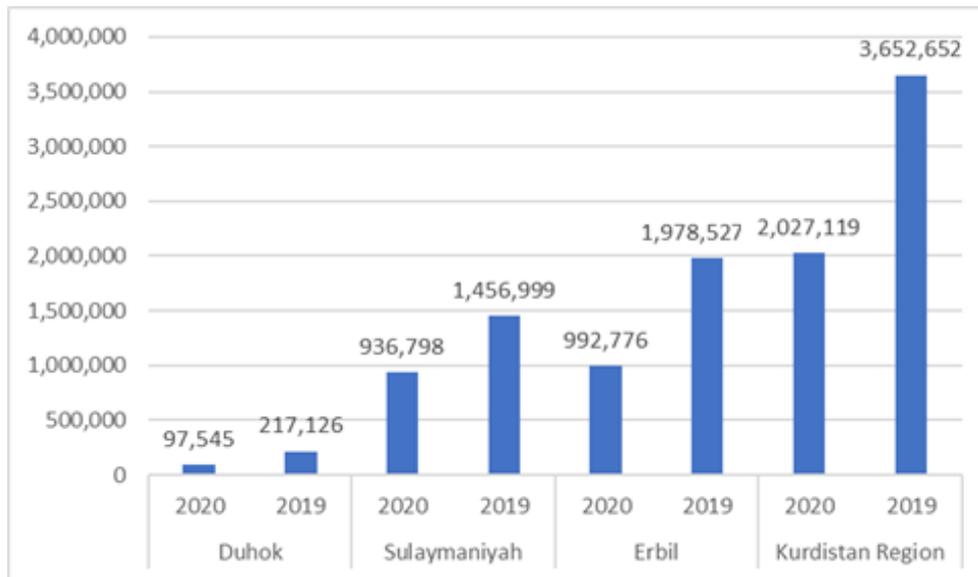

Figure 6: Number of stayed nights in tourism establishment at the level of governorate and Kurdistan Region in 2019 & 2020

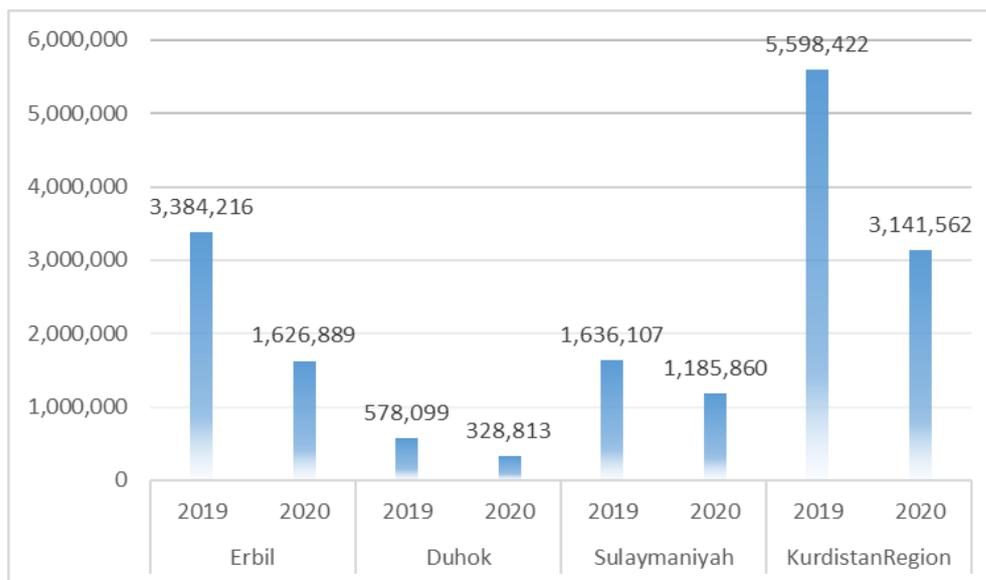

Figure 7 shows the number of workers in the tourism establishments in Kurdistan Region for the years 2020, 2019, 2016 and 2013. In 2020, 6,690 workers have been involved in tourism establishments, where it shows a decrease of 5.5% compared to 2019, this decrease is generally due to the weakening of the economic and financial state, and the spread of the coronavirus. In Figure 8, Duhok governorate had the highest rate of reduction the number of workers (%28), followed by Erbil governorate (%5.9), But Sulaymaniyah governorate had the increase by %5 with the number of workers in 2020.

Figure 7: Number of workers in tourism establishments at the level of Kurdistan Region in 2020 comparing to 2019, 2016, & 2013

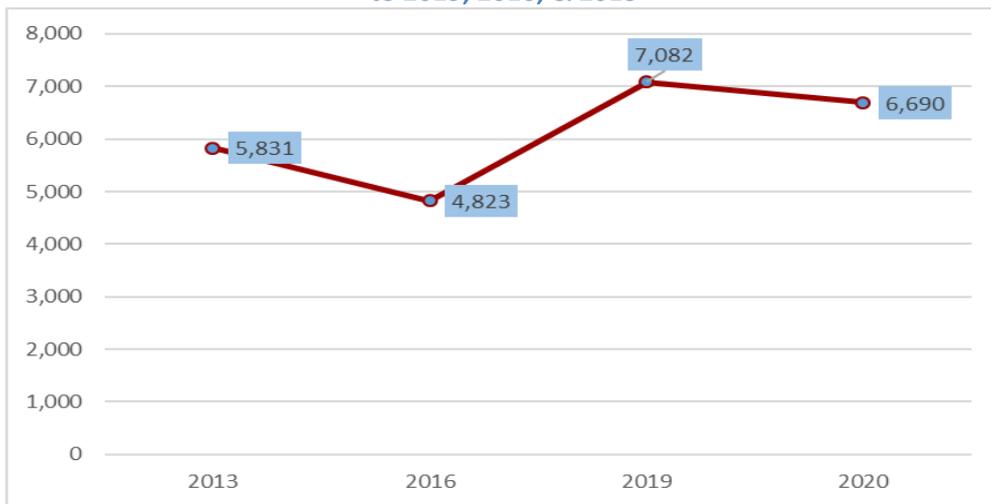

Figure 8: Number of workers in tourism establishments at the level of governorate in 2019 and 2020

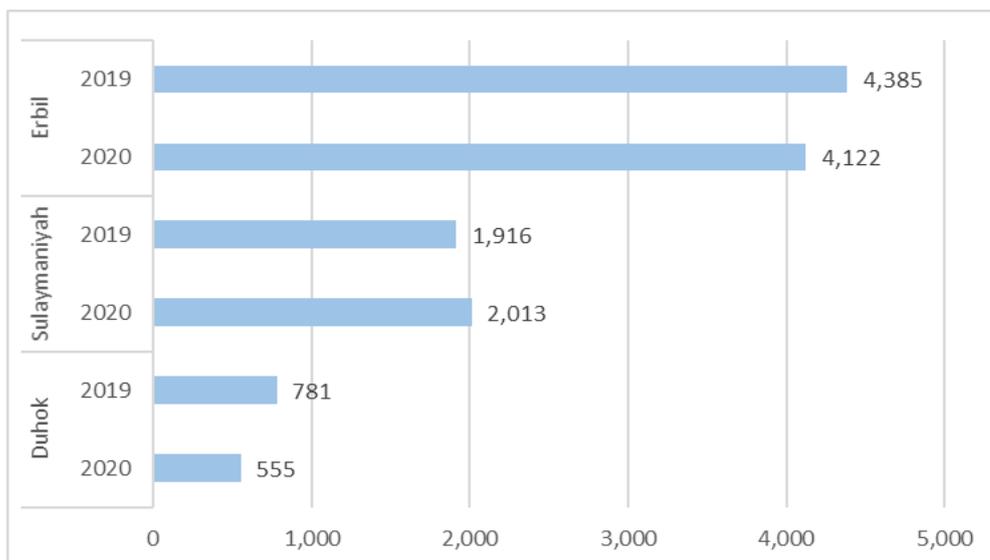

Figure 9 shows the total salaries and benefits paid to employees working in tourism establishments in Kurdistan Region for the years 2020, 2019, 2016 and 2013. According to the data, the total salaries and benefits of employees for 2020 reached 37.914 billion dinars with a decrease of 21.3% compared to 2019 (48.183 billion dinars).

Figure 10 shows the percentage of salaries and benefits paid to employees working in tourism establishments at the level of Kurdistan Region in 2020. At the level of governorates, the highest salary rate was in Erbil governorate with 61.3%, followed by Sulaymaniyah governorate with 34.6% and Duhok governorate with 4%.

Figure 9: Amount of salaries and in-kinds paid to workers in tourism establishments in Kurdistan Region (Billion ID) for the years 2013, 2016, 2019, & 2020

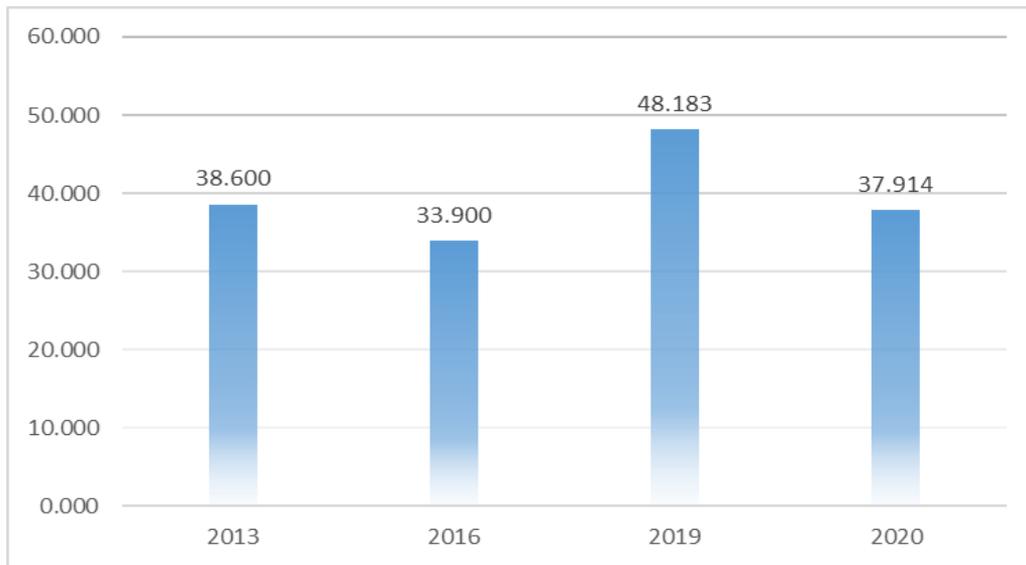

Figure10 : Percentage distribution of salaries and in-kinds for workers working in tourism establishments in Kurdistan Region in 2020

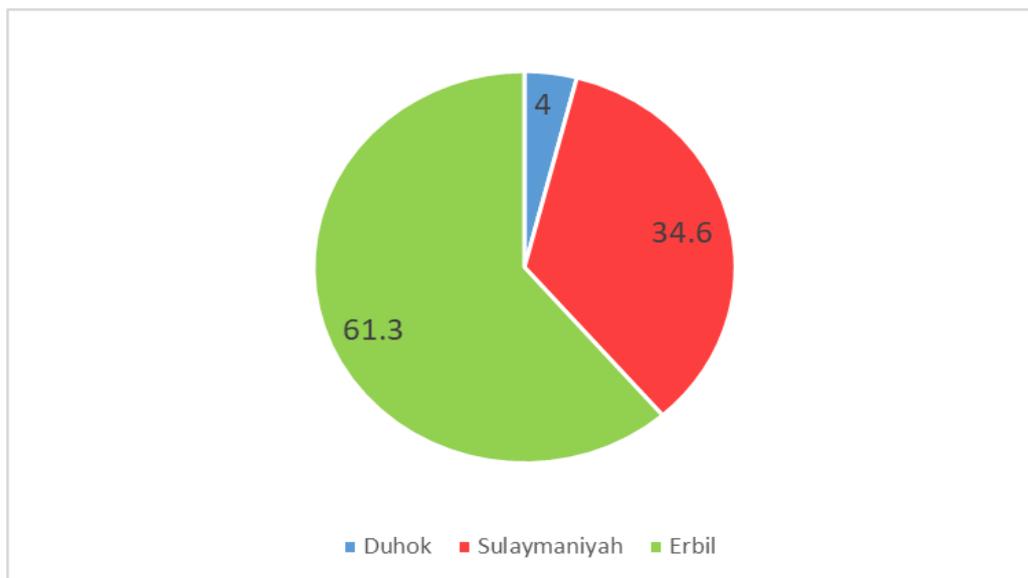

Figure 11 shows the total income achieved from tourism establishments for the years 2020, 2019, 2016 and 2013 at the level of Kurdistan Region. In 2020, the total income from tourism establishments in Kurdistan Region was about 232.039 billion IDs, where it shows a decrease of 32.6% compared to 344.770 billion IDs in 2019. At the level of governorates, Erbil governorate ranks first with the highest income, followed by Sulaymaniyah and Duhok governorates.

Figure 11: Total income from tourism establishments (billion IDs) in Kurdistan Region for the years 2013, 2016, 2019, and 2020

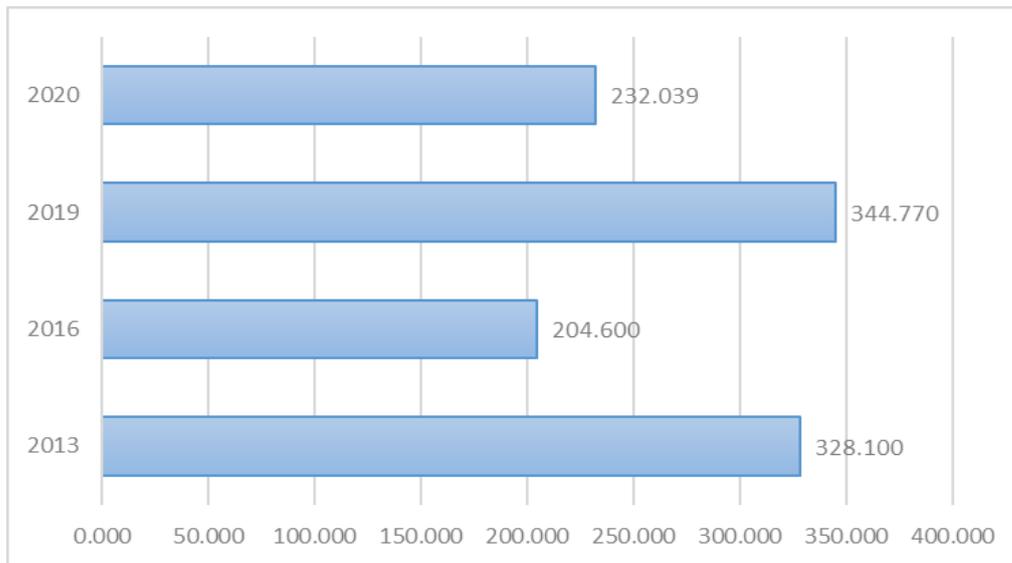

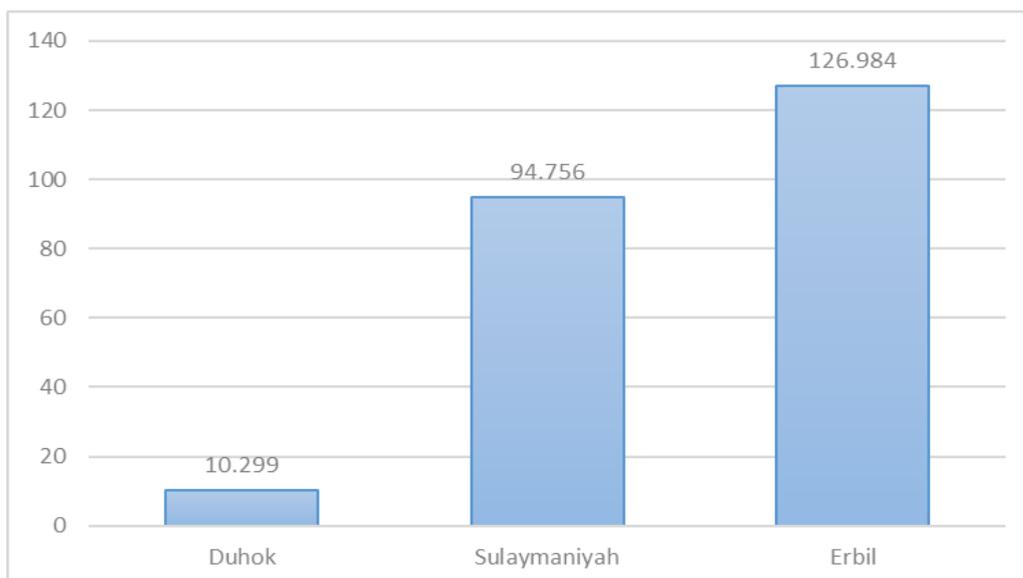

Figure 12 : Total income from tourism establishments (billion IDs) at the level of governorate in Kurdistan Region in 2020

In 2020, excluding salaries and in-kinds, the total expenditure in tourism establishments in Kurdistan Region reached 78.193 billion IDS with a decrease of 30.4% compared to 112.448 billion dinars in 2019 (Figure 13). At the level of governorates, the percentage distribution of expenditures in 2020 is as follows: Erbil governorate has the highest rate of expenditure (63%), followed by Sulaymaniyah governorate (31%) and Duhok governorate has the lowest rate of expenditure (6%) (Figure14).

Figure 13 : total expenditure (Billion ID) in tourism establishment in Kurdistan Region, excluding salaries and in-kinds in 2013, 2016, 2019, & 2020
