

## **The triangle of advocacy Ajam-Parsi, Iranian Revolutionary Guard Corps, and Josep Borrell!**

Notes

**Written by Azad Karimi**

At the exact time when the European Parliament approved the inclusion of the IRGC in the terrorist groups, the show "I give my advocacy to Prince Reza" Ali Karimi, a Pasdars- football player, began. In this comical and vulgar cartoon, he came to Europe with his family after collecting his dollars and now they issue political and charismatic theses like a political theorist.

When he came out of Iran a few weeks ago, he thought he was in the Hizbullah state of Iran, he hurriedly said, "I didn't come to lead... A week or two later, his Pasdars-lords commanded him to Create a promotional atmosphere!

Then they attacked the Kurds and others that you must prove that you are not a separatist and come and advocate to Prince Reza with us!

Of course, we don't accept their stupid idea, basically, we don't agree to anything from them based on our very long experience with them...because we are fundamentally infidels with their criminal god, which is known as the god of the sixties! Their god is the guardian of the world of death, rape, destruction, and mourning!

Reza Pahlavi, who has been heard for years about his mercenary and collusion with the IRGC, showed by his reaction he likes this show in order to show the European Union that the IRGC has both good and bad people, and the good part of them is going to stage a coup with me against Khamenei regime.

When?

This is a third-world dirty vulgar show, if there was going to be a coup they would have done it and basically, a coup is a very, very secret matter... What is this coup that everyone knows about and it hasn't been done yet?

Of course, they say that after the death of Khamenei! And basically, the supporters of the Shi'a province and the supporters of the Shi'a monarchy are now waiting for Khamenei to die, and then the supporters of Reza Pahlavi will stage a coup against the supporters of Mojtaba Khamenei!

Anyway, according to these behaviors, these two groups that make up the Revolutionary Guards seem to have a difference in obedience to the future leader, and of course, what we see is a truth and that is:

IRGC does not need the approval of Ali Khamenei, nor his successor (Mujtaba Khamenei or Reza Pahlavi) ...

What we see is that the IRGC manages all of them inside(Welayists, Reformists, Mullahs and Army, Police) and outside( Reza Pahlavi and his followers, reformists, and these types) ...

The IRGC also manages Josep Borrell, because Josep Borrell himself admits that the IRGC is not a terrorist!

While, according to the confession of Mohamad Javad Zarif, the former foreign minister of Iran, whose audio file became controversial, they are all under the control of Vladimir Putin... And see that the IRGC is sending its missiles and drones to Putin to kill the Ukrainians with them.

If this is not state terrorism, then what is the example or manifestation of terrorism in Mr. Josep Burrell's horticultural culture?

Aren't the millions of displaced Ukrainians Europeans, aren't they the flowers and trees of the alleged European garden of the gardener-florist Josep Borrell?

Of course, he stays more like a gardener who puts himself to sleep so that thieves come and steal the fruits of the garden!

I recommend that he go through his high school books again...go online for ten minutes a day and read the news. I am willing to garden instead of him without pay, but he will read ten minutes a day and modernize himself. His thoughts are very archaic.

Pope Francis represents the most conservative and religious authority in the world, but look at his views... he is the caliph of the apostle Paul... he also comes from the Latin world, from Argentina...a country that was captured by dictatorial and violent generals for many years like Spain, the birthplace of Josep Burrell, which was trampled under the boots of Franco's fascist soldiers for many years. Just like Iran today! but his words are a source of pride. Because he is aware of the world...

Look at the mullahs of Iran's Kurdistan or the religious authority of Baluchistan of Iran, I feel proud of their recent positions.

I never had any favorable opinion of Muslim mullahs, but because of their recently modern, progressive, and democratic thoughts, they have engaged with the dirtiest and most evil regime.

The result of collective advocacy ended with 400,000 signatures... and obtaining legitimacy from Ali Sistani... because apparently, he has a religious rivalry with Ali Khamenei... a pitiful backwardness!...

Of course, I know better than Mr. Borrell, that these people are very backward. unfortunately, I do not have his pressure levers.

Of course, if I had these levers of pressure, someone like him could never allow himself to openly support terrorists and their supporting governments. Because I was destroying the terrorists and he had to go back to his main job of gardening.
