

Help the Christian in Kurdistan-Iraq!

Written by Azad Karimi

Mr. Antonio Guterres, the Secretary General of the United Nations, has recently been reading the Qur'an and talks about the kindness of the Qur'an. But the kindness of the Quran does not justify the unkindness of Muslims who are terrorists and kill Jews, Christians, Ezidis and Bahais.

Anyway, in Qaraqush in Mosul in Kurdistan-Iraq, a month ago, more than one hundred Syriac-Chaldeans from Kurdistan, who happen to be Catholic Christians like Mr. Guterres, were killed by Hashd Shaabi, a terrorist group supported by Iran's mullahs' regime, in a wedding hall.

Unfortunately, no legal authority in Iraq is pursuing this criminal-terrorist case. This criminal case is classified as a crime against humanity with the aim of ethnic cleansing based on religion. Because Iraq is a predominantly Muslim

country, and Syriacs, Ashurians and Chaldeans who speak a different language from other Iraqis follow another religion, which is not Islam.

Therefore, the religion of these people is the basis of their ethnicity.

Considering that ISIS emerged from Mosul in 2014 and killed Christians and Ezidis citing verses of the Quran, therefore every militia group in Iraq, whether legal like Hashd al-Shaabi or illegal like ISIS and al-Qaida, are the enemy of non-Muslims.

You may know these things better than me. But the issue of these issues is not anti-Islamic, unfortunately it is a very bitter truth and Mr. Guterres must accept it. It should not wear a mask. All these crimes in the corners of the Middle East against non-Muslims by Islamist terrorist armed groups are never accidental.

Basically, a type people who are in the majority want to build a Middle East based on their ideology, so they destroy anyone who is outside their ideology for various reasons. Iraqi Christians are part of these people who must be destroyed.

Just look at these Muslim terrorists who want to destroy a nuclear power like Israel... or they want to destroy more than fifty million Kurds... so destroying one million Christians in Iraq should not be a difficult task for them...

Frankly speaking, Iran's mullahs' regime wants the Mosul region to be empty of Christians, Ezidis, and Mandaean because this region shares a border with Syria. The Iranian regime wants to clear the Golan region, which is the border of Syria and Israel, from possible obstacles. That is, from Bu-Kamal to Al-Tanf and the gates of the Golan, which is the land of Israel.

Let me say one more thing, Iran's regime of mullahs is not used to the word "No".

It uses anything to achieve its goal. Unfortunately, the Christians of Mosul are now hated by Ayatollah Hyena of Tehran.

This one-handed devil is determined to do his master Putin's bidding. Unfortunately, the White House has become extremely moralistic at this point in time. That is, you cannot even find the extreme pacifism and moralism of the White House in the imaginary utopia. Therefore, the White House does not want to bother Ayatollah Hyena. Of course, it is possible that the White House feels guilty because Ali Khamenei has a paralyzed hand.

Because whenever Ali Khamenei felt weak, he would gather his fans around him and give a speech on TV and cry and say that I am a paralyzed person and I am ready to be killed for Islam and Allah.

Unfortunately, some Iraqi Christians entered the Iranian regime's games by joining the Iraqi Popular Mobilization Forces. Everyone knows that the current Iraqi regime is a Shia government, which is a very important part of the Shia crescent project of the Tehran regime.

Of course, the interference of the Iranian regime in the affairs of Iraqi Christians is very high. Khamenei also interferes in the affairs of their churches. And since most Iraqi Christians are Catholics, unfortunately Pope Francis, who is the leader of Catholics in the world, does not defend these poor Christians.

Pope Francis has a strange love for Shia Islam. Because he thinks that by getting close to Ali Sistani and the mullahs of Iran, he can settle accounts with the Sunnis who fought the European crusaders eight hundred years ago. But the story is different now:

I am the Mashiakh-Sushiant of God the Creator. My spiritual rank is higher than any religious authority in the world. Because I am the founder of the scales of divine justice. Therefore, Ali Khamenei, who is my enemy, is the Dajjal or the Anti-Christ.

Now, if someone tries to deny title of Dajjal(Anti-Christ)'s status of the Khamenei , he has prepared hell for himself. Whoever befriends my enemy is my enemy, and God the Creator and His angels, who are His powerful angels, will never be kind to my enemies.

Therefore, what is happening to Iraqi Christians and Kurdistan-Iraqi Christians is genocide with the aim of ethnic cleansing with the aim of attacking Israel. I ask President Biden and his allies in CENTCOM to take care of the Christians in Mosul and Hasaka due to the presence of their forces in that area...

I ask European and United States lawyers to intervene in this case and the preparations for the trial of the Iraqi regime and the Hashd al-Shaabi militias provide to the International Court for war crimes against civilians with the aim of ethnic cleansing.
