

What a terrible situation!

Written by Azad Karimi

The most likely way to deal with the dangers of the third world war from China in cooperation with Iran is to strengthen the Turkish front and directly strengthen the Israeli front. With this work, Saudi Arabia and the surrounding Arab countries are also strengthened.

The first step is the declaration of independence of the Iraqi Kurds with the support of the October 2017 referendum... the second step is direct negotiations between Turkey and the autonomous government of the Syrian Kurds. This

Kurd-Leave-Kurd triangle will be the watchful eye of the Shiite Crescent and the activities of the Iranian regime.

The third step of connecting Turkey to Israel through the “Deir al Zur” desert will create a triangle of Turkey-Israel and Kurdistan in front of the eyes of the Iranian regime.

This triangle is located behind the borders of Iran, all of which belong to the Kurds of Iran. With the joining of the Iranian Kurds to this coalition, a whole front from the Caucasus and the Mediterranean will be opened against the regime of the Iranian mullahs. Other than this, there is no other way to defeat and destroy the terrorist regime of Iran.

The Patriotic Union of Kurdistan and the PKK, which are allies of the Iranian regime, the Iraqi regime, and the Syrian regime, will be destroyed.

China is engaged in secret activities in Iran's Kurdistan, maybe in three places... its activities are in Saqez-Panjuen-Baneh-Shler's plain. The war in Taiwan has unfortunately transferred to our region.

The destruction of the India-Saudi-Israel-Europe belt is very vital for China.

This applies even to the Central Asia-Caucasus-Mediterranean belt.

Russia's hope lies in the precise performance of China and Iran. Because these two belts will destroy the political and economic life of Russia. It will also cripple China.

The United States of America, Europe, Australia, and Canada without the Middle East should think of finding a new planet in the galaxy to get rid of China. These are not phobias, so be wise and don't fool yourself. Israel wins, but the main problem remains. Hamas could not have taken Israel by surprise without advanced technological assistance. Behind Hamas, Hezbollah and Islamic Jihad, in addition to Iran, there is also China. I warn Turkey to be more careful. He is also very vulnerable. Instead of watching the bad relationship between the northern Syrian Kurdish government and the Turkish government, the United States should think about a strategic peace between Turkey and the YPG. Even if we accept that YPG is part of PKK, they should be separated from PKK.

A new alliance must be formed so that humanity can be freed from the most terrible calamity that it has been involved with. The US Democratic Party must take responsibility for all the dangerous and destructive things it has done around the world. The world is not only the United States of America, and humanity is not limited to the society of the United States of America.

There are eight billion people on the planet, and the United States of America is only 400 million of these eight billion.

So come to your senses and act fast. If you are afraid, say it, if you are unable to say it, but don't wear a bravity mask. So that we can think how we can defend our existence.
