

# A Kurdish hero from Saqez

Written by Azad Karimi

A Kurdish hero from Saqez (My hometown) was killed three days ago in Thailand. His name is Faryar Aminipour.

Three days ago, he has been run over from back, by a car while he riding a motorcycle, and the killer driver fled. The killer has not been found yet.

The Iranian regime does not allow his body to be returned to Iran. This behavior of the regime has strengthened the suspicion that the death of the Kurdish hero Faryar Aminipour was suspicious.

Last year, Faryar Amini actively participated in the revolution of Woman Life, Freedom.

Whit offering my condolences to his family and the people of Kurdistan-Iran, I pray for him that his soul may be rest in peace, Amen!. He is in the mercy of God who made him a hero and entrusted him to immortality. The same creator God who every time Faryar fell on the ground in front of him, after his victories and humbly thanked him.

The Iranian regime's excuse is not having enough money for legal formalities!!!! The Iranian regime has no money!!!!

People of the world! remember that the Iranian regime does not have the money to return a hero who was killed in Thailand to Iran to be buried in his hometown... but this same criminal regime is for the extreme Palestinian terrorists who killed the people of Israel 100 days ago massacred sends billions of dollars in cash.

The Iranian regime does not have money for its citizens, but it gives money to backward regimes to perform political shows in various international arenas.

The Iranian regime claims that it has no money, but it spends billions of dollars on Yemeni Houthi terrorists to commit piracy and hijack ships and create problems for the economy and global security. Or he pays Iraqi terrorists to launch missiles at Centcom and American forces in Iraq and Syria. The Iranian regime says that it has no money to return Faryar's body from Thailand to Iran, but Hassan Nasrallah, the leader of the Lebanese Shia terrorists, says that bread, water, money, clothes and all the living expenses of our Lebanese Shiites are provided by the Islamic Republic of Iran.

Khaled Meshaal and Ismail Haniyeh, who travel with a private plane and have turned the Gaza Strip into an underground labyrinth, have gained \$5 billion in wealth with the money donated by the Iranian regime. But we are Kurds, and if we are defended ourselves, Erdogan and the heads of 22 Arab countries and 53 Islamic countries will attack us like poisonous snakes because we Kurds do not have the right to live, while if they let us have our own independent country we will be more civilized, more progressive and more advanced than them. But I feel sorry for humanity, which has lost its meaning and has become a toy!

my God! The youth of my nation shine in the world without any government support and become a symbol of progress, intelligence, ethics and progress in art, sports, science and freedom and philanthropic culture, But the children of the officials of the Iranian regime in the advanced countries of the world live a luxurious life with oil money and have nothing but corruption and extravagance!

Tell me that children like Faryar Aminipour are more noble and worthy, or the children of Masoumeh Ebtekar, who held the US embassy staff hostage in Tehran for 444 days, but her two sons live in the United States, with Iranian petrodollars! But the regime shamelessly now says that it has no money to bring back the body of Faryar the hero to the country!

When I call the Iranian regime and its friends and supporters corrupt and infernal, it is for this reason and other thousands of reasons. Iran's Islamic-terrorist regime is the embodiment of Satan and the Anti Christ government.

The regime takes the lives of Iran's youth, especially brave, heroic and talented Kurdish youth. Because he knows that the Kurdish nation is the destroyer of this demonic regime. We throw the Iranian regime into the dustbin of history, its destruction is near. God has given me this promise.
