

Who is Peshraw Dzayi?

Written by Azad Karimi

Peshraw Majid Agha Dzayi, a Kurdish Entrepreneur, Rich and Businessman from Kurdistan-Iraq, was killed two hours ago by the Iranian terrorist group (IRGC) ballistic missiles fired from Kermanshah to Erbil.

The IRGC immediately accepted responsibility for this terrorist act and announced that it destroyed the Mossad headquarters in Erbil.

This blatant lie, regardless of anything else that world commentators attribute to political issues and international competition between the United States and the Iranian regime, is, in my view, an outright genocide aimed at destroying the semi-self-sufficient economy of Iraqi Kurdistan.

I saw a short clip of him saying that he donated 1 million dollars to the families of Kurdistan soldiers. These soldiers were killed in the war against ISIS Islamist terrorists. He says that he is loyal to the Kurdish nation and the government of Kurdistan and considers himself a servant of the family of martyrs of Kurdistan.

This morning I wrote that the regimes of Iran, Turkey and Iraq are now carrying out a systematic plan in cooperation with each other without any fear: the scorched earth!

The security forces of Kurdistan announced that they have arrested an Iranian near the house of Mr. Peshraw Dzayi, suspecting that he is related to this terrorist attack.

The leaders of Kurdistan-Iraq government have a national duty to protect their people. Their national security is at risk. They should try to reduce their distance with the people of Kurdistan.

Expecting the government of Baghdad is futile. He is part of this evil plan.

I say once again that the plan to destroy the Kurdish nation is underway by Tehran, Ankara and Baghdad: the destruction of the Kurdish economy.

Lean on your feet first, then others!... No one in the world loves God as much as I do, because I am the Servant of God, but I am ashamed to pray and say: My God, please destroy my enemies for me.... I always pray: My God to Give me strength to destroy my enemies.

Therefore, seeking help from God and the Holy Spirit and seeking help from prophets to remove the sedition of enemies, thieves, and terrorists without taking action yourself is foolishness. You have a duty to protect your life, wealth, nation, power, authority and territory and rely on yourself. God will help you if you act.

The government of Kurdistan-Iraq has the duty to defend itself and its people.
