

Gula, Goll or Watchdog (Paarse)

Written by Azad Karimi

Izad Enlil, the ruler of red and white, the father of Marna and Nergal, the symbol of the scales of justice in the balance of creation.

He shows the number four with his hand, which means beyond distance or dimension beyond space.

He is in the fourth dimension or the metaphysical dimension, and he is the link of the fifth dimension, which is the Holy Thron of God the Creator, and the third dimension, which is the particle of creation or Huwa-Khsha-Tara. This particle is the origin of creation and the three-dimensional world.

The dog is a symbol of guardianship and Nergal is the guardian. Therefore, the word guard is displayed with a dog. The name of this dog is Gula in ancient Akkadian, which is the same as Goll or Гол in modern Kurdish language.

The word "Paarsa" in ancient Sumerian and Akkadian means guardian and only Gula has this attribute.

Enlil has a home in the south, Marnu in the center and Nergal or Anishkeh in the north.

God has taught me these issues and those who introduce this science as related to Satan should know that Satan never acts against himself.

I, who translate and interpret these ancient materials, am Sushanes, and I hear and write, and I relate to the wisdom of God the Creator. God has requested that by presenting these materials, the misconceptions that have been created and promoted since the time of Babylon's reign will be corrected.

Those who have questioned my mental and mental health are facing great problems and crises as evidenced by history because they got involved in illusions and made stupid and crazy decisions and got themselves into trouble. Maybe in their small brains, where money is the standard of value, my words, which are not my source of income, are due to madness.

Of course, my science is beyond madness. Because insanity is defined based on the standards of the 3D world, not by God's wisdom, which is in the 5th dimension. This is why Enlil met me directly in the fourth dimension and gave me news of the fifth dimension and I see the manifestation of this news in the third dimension.

If you have studied a little, you will realize that my words are completely in accordance with the standards of the science of the 3D world.

Interestingly, I'm not talking about the distant future, I'm telling you the events of the present.

But you don't want to admit because of your pride. This is what man is involved in today: the madness of arrogance!

It is exactly from this point that God hits you.

Those who saved the Iranian regime from destruction two years ago should know that their punishment is more severe than the punishment of the mullahs and their guards and mercenaries.
