Statement on the Belgian police attacks against Roj TV

We are individuals and democratic organizations that are protesting against the the Belgian police attacks against Roj TV, the radio station "Voice of Mesopotamia" and Kurdish politicians.

This aggression is contrary to freedom of communication, people's right to be informed and think freely. We support the Roj TV, the radio station "Voice of Mesopotamia, its staff and the arrested Kurdish politicians. The attack against the Kurdish people and Kurdish organizations should be stopped immediately and those arrested be released.

The Belgian government and the police should apologize for what happened against Roj TV, radio station and Kurdish politicians.

Democratic countries and human rights defenders must not remain silent against the attack from the Turkish and Belgian governments. Supporting the press and freedom of speech.
